

Name	Michael Griffiths
Position	Case Management Assistant
Qualifications	BA Hons Politics & Applied Psychology
Memberships	BABICM

Michael has been working in the care sector since 2012. During his time in the sector Michael has supported and empowered individuals with a vast array of different challenges and conditions including learning difficulties and autism.

In 2015 Michael began to specialise in brain injury, joining a rehabilitation team as Deputy Team Leader and subsequently becoming Team Leader in 2016. Working closely with Therapists and Case Management, Michael was able to sustain a strong and committed team of Rehabilitation Support Workers to provide a high level of care through changing dynamic periods of progression and regression as well as palliative care.

During this time whilst, being over seen by case management, Michael took on assistant case management duties to further develop his skills. Michael has been working within CQC standards and has vast experience of implementing and managing care as well as adapting to changes as they are imposed.

Michael is adept with the use of technology and IT skills, looking to utilise these where possible to empower clients and carers alike.

Away from work Michael has a keen interest in physical health, mobility and nutrition and is currently studying to become a Level 4 Qualified Personal Trainer and sports Nutritionist. Michael is looking to apply this knowledge to individuals who have challenges with mobility.

Michael's Specialist areas/skills include:

- Team Management
- Clinical MDT working
- IT Skills
- Physical wellbeing
- Nutrition
