

kindred

A THERAPEUTIC HEALTHCARE COMMUNITY

Name	Adam Cheesman
Position	Emergency Rehabilitation Support Worker
Qualifications	NVQ Level 2 – Aeronautical Engineering PEO2 – Practical Engineering Operations BTEC GNVQ - English, Maths and IT

I have extensive experience in customer-facing roles; having worked as both a Senior Range Officer and Customer Tech Support over the past 5 years. I am person-focused and enjoy being able to support individuals to achieve their own goals, partake in their own hobbies, and just find enjoyment in life.

During my time as a Senior Range Officer, I taught groups of people how to throw axes, do archery, and control firearms; so I understand the importance of clear communication, and I am conscious of the need to undertake risk assessments when carrying out activities, while also recognising how important it is to have fun!

I consider myself to be a compassionate, happy, people-person – I love talking to new people and forging friendships - and through my professional experience, I am able to explain processes, instruct, and support individuals without bias. I have ample experience working in team-based environments, as well as being content and able in my own company, and pride myself on good punctuality and efficient working practice.

Outside of work, I'm an adventurous person and I enjoy spending time outdoors; being a keen mountain biker and motorcycle enthusiast. I also have a passion for PCs – I enjoy building them from scratch, and teaching others how to build their own, too. I am also an avid PC gamer, and consider my passions to lay in all things tech and cooking.

I'm looking forwards to expanding on my knowledge and skillset, and keen to help people live and enjoy their day-to-day lives. I am always open to learning and training opportunities to improve myself, and willing to undertake any client-specific training depending on diagnosis and client-specific needs.

I have undertaken the following:

- Mandatory Health and Social care training;
- Basic Brain Injury training;
- Litigation Notes and Good Practice training.
